Response to Amendment

1. Receipt is acknowledged of the Amendment filed November 27, 2006.

Allowable Subject Matter

2. Claims 26 and 30-35 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited prior art of the record discloses, teaches, or fairly suggests the claimed method of uniquely identifying an entity including, among other steps, a step of controlling, by the wireless control device, the storage of the data representative of the unique characteristic of the entity on the wireless identification device, via the reader device, and the erasure of the data representative of the unique characteristic of the entity from the reader device and/or the wireless control device. After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claims 26 and 30-35 are found to be in condition for allowance over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
